

## How does the VIQ help students?

The VIQ gives students, their parents and teachers direction in terms of **choosing school subjects, work experience, traineeships, university** and other courses that will lead them to their preferred careers.

The **Career Action Plan** enables students to work through their results and guides them through the steps to move towards their **career goals**.

The VIQ achieves this by identifying their **areas of interest**, gives advice on researching job opportunities and helps them to locate the qualifications and courses required to get them to where they want to go.

## What does the VIQ Report look like?

The VIQ is a comprehensive report of **around 15 pages**. It includes:

- the Interest Profile for the 7 work interest categories
- a description of each of the areas of interest
- a list of the job tasks and activities in the questionnaire that appealed to the student
- a recommended list of the jobs that seem most appealing for you
- a Career Action Plan to help you research and focus on your career pathway

## Why is the VIQ a good choice?

*“If you enjoy a job, you are more likely to succeed in it”*

The VIQ is different as it doesn't ask about specific jobs. Instead, it asks students to rate how much they would **enjoy specific tasks or activities**. This achieves **better results** and makes it much **easier to do**.

*Dove-tails directly into the Australian 'Job Guide'*

The VIQ measures the same 7 interest categories as used in the **Australian "Job Guide"**. This means the professionally presented VIQ reports are **easier to interpret** as they dove-tail exactly into the most popular job resource used by secondary students.

## Key features of the VIQ

- **Dovetails with 'The Job Guide'** and its 7 interest categories.
- **Easy to set up** – only takes a few minutes for a school to get started.
- **No software to install** – web based so you only need an internet connection.
- **Cost effective** – only pay for the number of students tested.
- **Time saving** – the VIQ only takes a student 20-25 minutes.
- **School branded** – school logo on the website and name on the report.
- **Quality** – professionally presented reports are automatically created.
- **Convenient** – students can complete the VIQ at home or at school.
- **Reliable results** – practical report that greatly assists in decision making.
- **Customer support** – as much email and telephone support as you need.
