

## VIQ TEST/RETEST RELIABILITY

Test re-test reliability of the Vocational Interest Questionnaire (VIQ) was undertaken in four schools (three independent schools and one public school) in the second term of 2000. A total of 284 students completed the VIQ across a two-week period.

Results showed that the VIQ was reliable across a two-week period and across all the scales and sub-scales constituting the VIQ.
